Dr. Farzad Ebrahimi

- President of IoT Academy (ITU Academia Member & ITU IoT Center of Excellence in Asia-Pacific)
- International Internet of Things (IoT) Speaker & Lecturer
- International Telecommunication Union (ITU) Expert
- Chairman, Member of the founding board and the board of trustees of Non-Commercial Institute (as a NGO) of “Promoting the Internet of Things and data science” at national level.
- Doctor of Business Administration from the University of Tehran, MBA, M.Sc in Electrical Engineering- Telecommunication systems, B.Sc in Electrical Engineering- Electronics.
- Faculty Member in ICT Research Institute

Other Records:

- Chairman of The corresponding ISO/IEC JTC1 SC41 (Internet of Things and related technologies Standards) in Iran
- Counselor of the Director of ICT Research Institute
- Superintendent of IT Faculty in Iran Telecom Research Center
- Deputy of IT Faculty in Iran Telecom Research Center
- Head of Multimedia Systems Research Group in Iran Telecom Research Center
- Project Manager, Consultant and Observer of more than 50 Regional and National ICT related Projects.

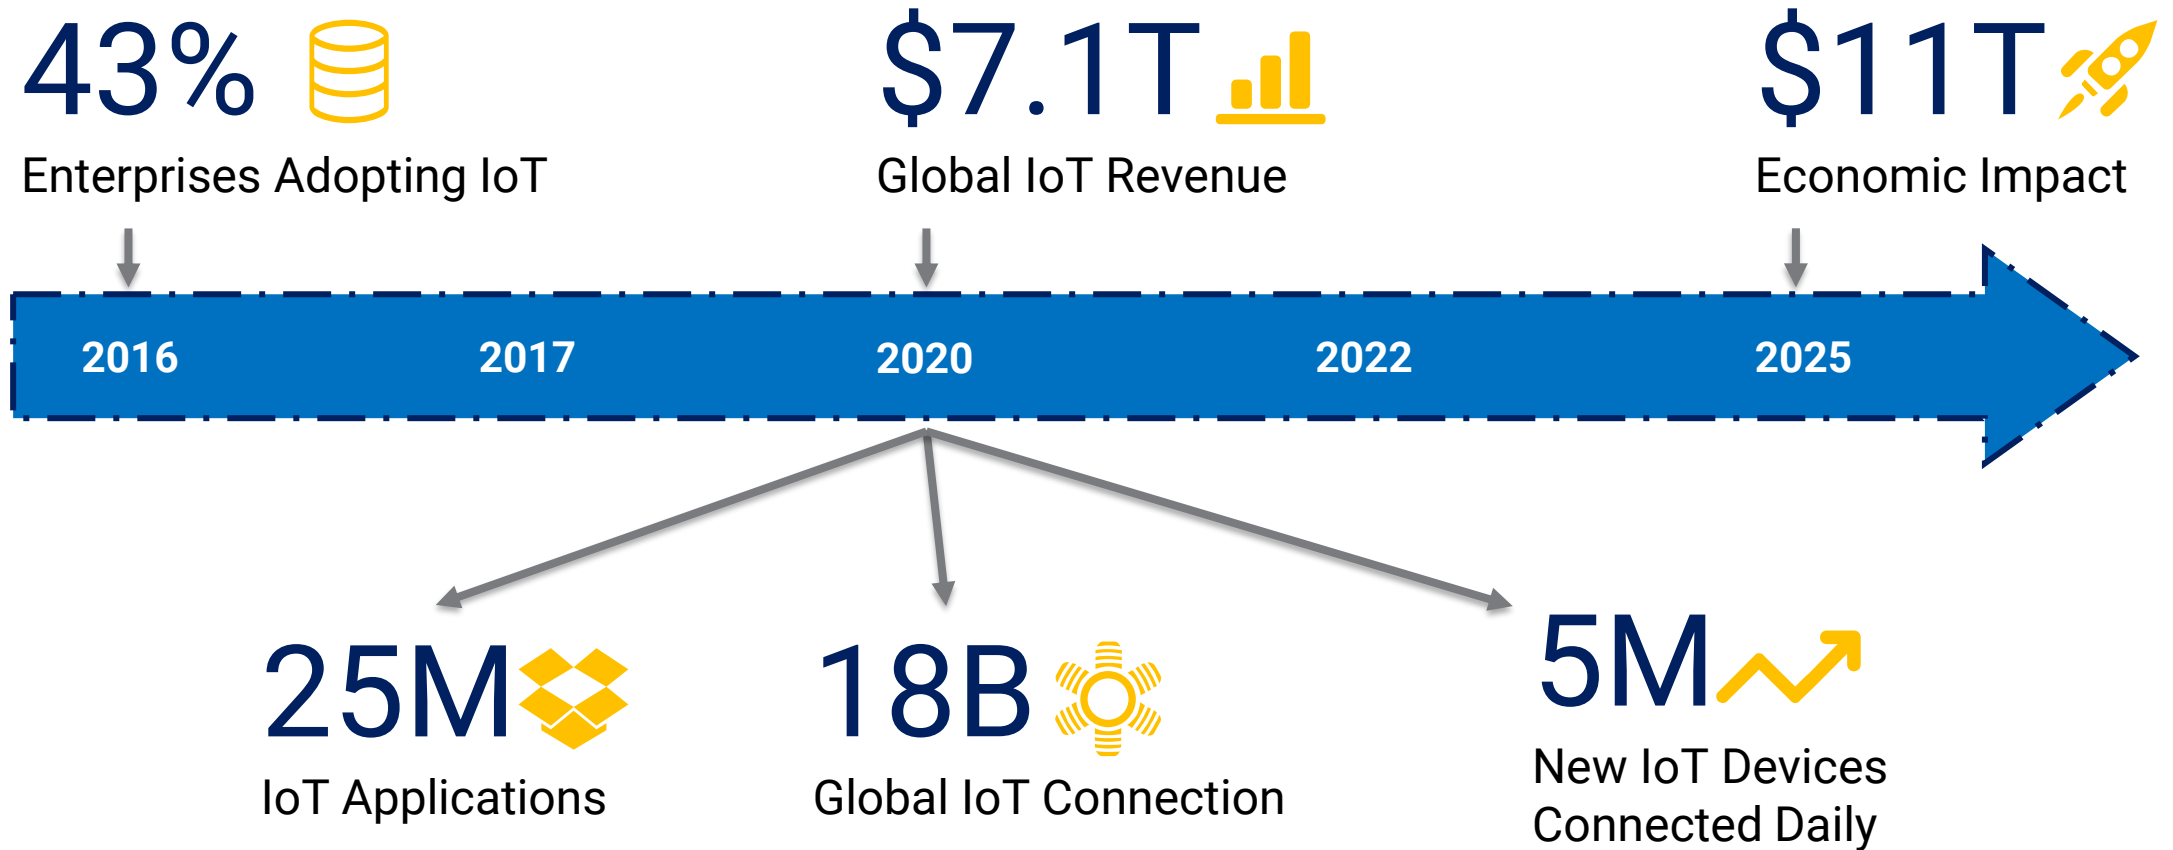

What is Internet of Things (IoT) ?

The International Telecommunications Union (ITU) defines IoT as follows: “The IoT can be viewed as a global infrastructure for the information society, enabling advanced services by interconnecting (physical and virtual) things based on existing and evolving interoperable information and communication technologies (ICT)” (Source: Recommendation ITU-T Y.2060).

IOT ACADEMY INTRODUCTION

.....

VISION :

**“Internet of Things Products and Solutions for Unique Living
of World People”**

MISSION :

**“Increasing Citizen Awareness and Empowering Human
Resources, Organizations and Industries in the field of
Internet of Things and Related Technologies”**

IoT Academy at a Glance

- Founded in **2014**
- Headquarter Currently Located in **Tehran, Iran**
- Join ITU as a **ITU Academia Member** in **2018**
- **ITU Asia-Pacific Center of Excellence (CoE)** in Priority area of **Internet of Things** (2019-2022)
- **Chairman** of The corresponding **ISO/IEC JTC1 SC41** (Internet of Things and Related Technologies Standards) in **Iran**
- **Deputy of IoT & Big Data Commission** in **Tehran ICT Guild Organization**

IoT Academy Structure:

- IoT Innovation and Research Center (IoTIRC)
- IoT Content Creation Department
 - IoE and Related Technologies Magazine
(New)
- IoT Training Department
- IoT Standards Group
- IoT Market Research and Analysis Group
(New)

International Telecommunication Union (ITU) Academia Member

Name of pledge

Empowering and raising awareness of citizens from the perspective of digital transformation and the fifth industrial revolution

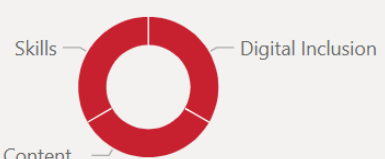

Entity

IoT Academy

Location

Iran (Islamic Republic of), Asia & the Pacific

IoT Academy will provide international training courses, events and digital contents around the IoT and related technologies, smart cities, industry4.0, industry 5.0, and digital transformation for realizing the increasing citizen awareness, empowering HR & organizations, and research, and development. IoT Academy will empower human resources through its skill-based training program.

2023 World IoT Top 500 Summit

During the Multilateral Cooperation Forum at the 2023 World Internet of Things Convention (WIOTC), Dr. Farzad Ebrahimi, CEO, and founder of IoT Academy, delivered a thought-provoking speech on the interconnected economy. Dr. Ebrahimi highlighted the critical role played by countries and companies in shaping the market pattern of the digital economy and emphasized the main direction of the investment for multilateral cooperation. His insights shed light on the evolving landscape of the global economy and provided valuable guidance for policymakers and business leaders alike.

IoT Academy Activities and Services

1. Increasing Citizen Awareness

Raise Awareness of Citizens for the use of Internet of Things (IoT) & Smart City Products and Services through content creation and holding events.

2. Empowering HR, Organizations and Industries

Hold IoT & Smart City Courses and Workshops with the approach for Empowering:

- Participants to promote a job position or enter the job market.
- Organizations and Industries to enter the IoT Market.

National Training & Cooperation

- Holding more than **390** events in the field of IoT and Related Technologies
- IoT Academy has trained **8500+** individuals.
- Year 2019: **32** Course Titles
- For 2024: **100+** Course Titles

Organizational Events

+200 Events

Conversational meetings

+30 Gatherings

Workshops

+120 Workshops

Digital Transformation: Enhancing IoT-driven Solutions For Smart Islands

REGISTRATION	EVENT DATES	LOCATION
Start Date: 04 Jan 2022 End Date: 05 May 2022	Start Date: 09 May 2022 End Date: 22 May 2022	Online Training on ITU Academy Platform

Smart Islands is a Programme that adopts an innovative approach to deliver connectivity and scalable and sustainable services to disadvantaged island communities. The Smart Islands Programme aims at transforming rural and coastal communities and improving their well-being and livelihood by connecting them to a range of digitally enabled services. Considering the IoT and Blockchain solutions as key elements of digital transformation can help to achieve the goals of smart islands.

Acquiring 5G & IoT Services For Smart Cities & Smart Villages

REGISTRATION	EVENT DATES	LOCATION
Start Date: 04 Jan 2022 End Date: 03 Nov 2022	Start Date: 07 Nov 2022 End Date: 20 Nov 2022	Online Training On ITU Academy Platform

This course aims to introduce participants to the concept and pillars of the Internet of Things in the areas of the Smart Cities & Smart Villages. Participants will be introduced to concepts, goals, frameworks, key aspects and KPIs of IoT and related technology solutions and services such as Big Data and Blockchain area and some use cases for the Smart Cities & Smart Villages. The role of 5G technologies and connecting the megacities to small villages by using IoT and 5G services will also be trained in this course.

Start Date: 10 Feb 2020 End Date: 30 Oct 2020	Start Date: 02 Nov 2020 End Date: 13 Nov 2020	Online Training on ITU Academy Platform

Internet of Things will form a key component that will enable the 4th industrial revolution. This online training course aims to introduce participants to Internet of Things ecosystem and its key components including acquisition (Sensors & Actuators, embedded Systems, Gateways), network (Device Connectivity), IoT platform (Analytics, Dashboards & Tools, Services), and business (IoT Applications and Services, IoT Verticals, Marketplaces). The training will take into account policies and regulations related to Internet of Things and its security aspects. It will specifically focus on some IoT verticals and cover all elements described above for them.

جناب آقای دکتر فرزاد ابراهیمی
مدیرعامل محترم شرکت دانش مان اینترنت اشیا

موضوع: گواهی تایید صلاحیت محصولات تولیدی

با سلام،
احتراماً، بدینوسیله به اطلاع میرساند در چارچوب همکاریهای مشترک با آن شرکت محترم، ضمن اعلام رضایت فنی و تخصصی از طراحی، ساخت و عملکرد کنترل پنل های آشکارساز گاز (آنالایزر) برای شناسایی گازهای CO ، CH_4 ، H_2S و CO_2 مدل های $ABI\ 400$ ، $ABI\ 800$ و $ABI\ 1200$ بعد از حدود دو سال کار در پروژه های حفاری مناطق جنوب کشور، توفیقات روزافزون آن مدیریت و مجموعه را خواستاریم.
امید است که در راستای بومی سازی محصولات بعدی حوزه نفت و گاز نیز موفق و سر بلند باشید.

حسن شریفی
مدیرعامل و نائب رئیس هیئت مدیره

IOT ACADEMY INTERNATIONAL COOPERATION

.....

MEMORANDUM OF UNDERSTANDING

between

IOT Academy

and

Carl Duisberg Centren gGmbH

1. Parties

This Memorandum of Understanding (hereinafter referred to as "MoU") is made and entered into by **IoT Academy (IOTA)**, a company incorporated under the laws of the Islamic Republic of Iran, duly represented by Mr. Farzad Ebrahimi as CEO and Founder and registered under the number 805978 in Islamic Republic of Iran, having its registered office at Bldg. No.1 Tehran University Science & Technology Park, 16th St, North Karegar St., Tehran, Iran. Postal code: 1439813231, hereinafter referred to as "**Party A**". Party A, established and registered in 2017, is a leading Academy in the field of Internet of Things (IoT), Industrial IoT, Industry 4.0, Industry 5.0, Digital Transformation and Smart City services and training. Party A is an internationally well-known company, an International Telecommunication Union (ITU) Academia member and ITU Center of Excellence in priority area of Internet of Things in Asia-Pacific.

AND

Carl Duisberg Centren gGmbH (CDC) is a leading international training service provider, offering professional training programs and management trainings, high-quality language courses, intercultural training, valuable experiences abroad and industry-specific professional training. Carl Duisberg Centren offers programs aimed at people of all ages and career stages, e.g. students venturing out into the world for the first time, working professionals seeking to improve their career perspective or companies on the road to global success. CDC is headquartered at Hansaring 49-51, 50670 Cologne and is represented by its Managing Director Mr. Jörn Hardenbicker. Hereinafter referred to as "**Party B**".

Done and signed on 24th of May 2022 in two originals in English language, both texts being equally authentic.
